 **Mark Dagleish** @markdagleish · 1m

Working at @rainbowdotme is absolutely TERRIBLE for my imposter syndrome.

 Edit 10

ANTIREZ @antirez · 4h

Abstractions are a mean do dominate complexity, not a way to write code that is different and more convoluted to show you are smart. Every abstractions that does not pay itself the same weight in gold, is bad. This is a crucial concept that who came before left to us.
